In discussing the total labor bill, she told one reporter, "My God, I had no idea it would run into such an amount."

Manpower, Inc., turned in a bill for 31,239 contract labor hours at \$1.78 and 6,220 hours at \$2.49 an hour.

A former secretary of the fair said the number of hours is about what would be required, but that labor used to cost about \$25,000.

ON IN CONVICT SEARCH

Missouri Warden Believes Escapes Still at Prison

(By The Star's Own Service)

Jefferson City—A search for one of two convicts reported missing Friday night from the Missouri penitentiary continued last night. One of the two men, Joseph Seibert, 27, who was sentenced from Jackson County to life term for first degree murder, was captured one-half hour after the men were reported missing.

The other man, identified by the warden, Harold Swenson, as James E. Ray, 38, who was serving 20 years from St. Louis for armed robbery and car theft, was sought on the prison grounds.

Swenson said prison authorities have no reason to believe that Ray went over the wall. He said the search for Ray covered possible hiding places on the prison grounds such as storm drains, sewers and passage-ways.

Swenson said both men had attempted previously to escape.
